

Trace Cyber Solutions Internet Privacy Notice

Trace Cyber Solutions (“Trace”) is committed to safeguarding your privacy online. Please read the following to understand how your personal data will be treated during your use of Trace’s websites.

From time to time, Trace may make changes to this privacy notice to reflect changes in its business or to serve you better. Trace will use reasonable efforts to publish any such changes in the privacy notice, such as posting on this website. You should review this notice periodically to inform yourself of any changes. Please note the date in the footer of this document so that you know when it was last updated. Users are bound by the then-current version of this privacy notice.

Trace protects your privacy on www.tracecybersolutions.com through these basic principles:

1. You will be advised when Trace is collecting information about you or your online preferences and expectations and it will be made clear how that information is to be used. In general, information collected such as names, addresses, phone numbers, e-mail addresses, etc. will only be used by Trace to respond to inquiries, manage user established online accounts, or for specific Trace marketing activities, events or services. If you choose not to provide some information, please be aware that it may not be possible for you to proceed with your chosen business activity with Trace.
2. Trace reserves the right to retain electronic communications sent by visitors. Further, Trace uses an SMTP gateway to forward e-mail and to log e-mail transactions. Logs of e-mail transactions include: date and time of message; name and IP address of connecting host; e-mail address of message originator; and Trace address of recipient.
3. Any information collected about you will be kept secure and not shared with third parties. However, Trace may have to disclose personal data it considers necessary in order to comply with court orders, subpoenas, governmental or law enforcement requests.,
4. As part of its global data privacy management program, Trace maintains processes intended to allow individuals to request access to, correct, or erase personal data that Trace maintains related to such individuals. To submit such requests, please contact us at privacy@Tracecybersolution.com or at the mailing address listed below. Be sure to include your name and clear instructions regarding any change to your personal data or request to delete you from our database, and Trace will use commercially reasonable efforts to complete your request. In the event you choose to delete your personal data from our database, we may retain a record of such information as well as your request for deletion as evidence of our compliance with this privacy statement.

5. For the most part, you can visit this website without revealing any information about yourself. Our web servers do not collect e-mail addresses unless you provide it to us. We do collect generalized information such as the IP address and domain name from which the connection originates. This information is used in the aggregate to measure pages viewed, the amount of time spent on the site, the number of visits, and similar information. We use this information to improve the contents of our website.

6. In order to improve our site, we utilize various types of "cookies" to maintain a record of your visit.

In this section, Trace explains the type of cookies used on the Tracecybersolutions.com domain, including a list of cookies that may be set from this website. Your browser software allows you to modify the types of cookies allowed on our website by using the "Change Cookie Settings" or similar button and accepting the Cookie Policy, with the exception of mandatory cookies which are required to maintain basic site functionality. For more basics on what cookies are and how cookies function, please refer to the "Cookies and Similar Technologies" section below.

Essential Cookies

Essential Cookies are cookies that are necessary for the web site to function.

These cookies:

- cannot be turned off; and
- remember information, such as your region, in order to show appropriate regional content

Preference and Analytics Cookies

Preference and Analytics Cookies are cookies that work to give you an improved site experience.

For example, these cookies:

- remember your preferences about search to improve search experience; and
- capture information about site usage to help us improve

Social and Marketing Cookies

Social and Marketing Cookies help Trace enable improved social media features and marketing messages.

For example, these cookies:

- let you share information from the site on social media; and
- help Trace direct specific marketing content and campaigns to you that may be of interest to you based upon your use of Trace's site.

7. Trace does not intend to collect information from children under the age of thirteen (13) without the consent of the child's parent or legal guardian. Children under the age of thirteen (13) should only submit information to Trace with the prior consent of their parent or legal guardian. If your child has submitted personal data to Trace and you would like to request that such information be removed, please contact us as provided below and we will use reasonable efforts to ensure such information is removed.

8. International visitors to Trace's website should be aware that personal data may be transferred to computers in the United States or other locations around the world in order to fulfill your request.

9. Non-personal data you supply to Trace through Trace websites, including but not limited to feedback, data, answers, questions, comments, suggestions, plans, ideas or the like, will not be treated as proprietary or as confidential and Trace assumes no obligation to protect such information from disclosure. Trace may use any such information you supply to respond to inquiries or as part of its marketing activities. Further, the submission of such information to Trace shall not restrict the purchase, manufacture or use of similar products, services, plans and ideas by Trace for any purpose whatever and Trace shall be free to reproduce, use, disclose and distribute the information to others without restriction.

10. Trace does not endorse, nor does it participate in the practice of "spamming" (sending of unsolicited promotional e-mail). If you believe you have received such a message from Trace please contact privacy@Tracecybersolutions.com.

If you have any questions or comments about this privacy policy, please contact us at:
